DATE 1 April 1954

SUBJECT: GENERAL— REDSOX

SPECIFIC— Report of Soviet and Polish penetration of Resistance  
Movements in the Ukraine

Reference: DIR 43975, ☐ 0382

1. In regard to references, the following note prepared by ☐ and signed by ☐ has been received on this date:

"We would like to confirm the finding that the contents of your letter (DIR 40271) do not appear to have a bearing on the case discussed between ☐ and ☐ during the latter's visit to London in February. This concerned doubts expressed by (KUBARK) regarding the security of the escape line used by the recent exfiltrate BORIS. In the absence of any concrete evidence regarding the insecurity of this line we are therefore assuming that it continues to be safe and usable."

2. In another communication received from JAVELIN, they request that the following questions be put to the source of DIR 40271. This request has been passed to us by JAVELIN despite the fact that they were informed that our source had no details of the operation other than those provided in DIR 40271, (as stated in Para 2 of DIR 40271). I request that any information which may be available in answer to JAVELIN's questions be sent to me for passage to them:

"Although no definite tie-up with any of our own operations can be discerned, we would be grateful if the following further questions could be put to the defector, who we understand is now in the U.S.A.:

PART A

- Was ROMKOWSKI the only source of this information?
- Where and how and why did the conversation about Ukrainian movements arise?
- What was the defector's relationship, official and personal, to ROMKOWSKI? Why did ROMKOWSKI tell the defector of this matter? Did the defector have anything to do with the control or elimination of the Ukrainian activities in Poland?
